

4th Quarter and Year-End Report 2008 : Long-Term Appreciation Less than Houses Condo Market Struggles for the 3rd Consecutive Year

 carmelabodes.com

It will not be a surprise to anyone that the condominium market in the third quarter continued to be weak.

The Market Barometer, our measure of the percentage of listings in escrow, continues to be exceedingly low, a meager 10% on October 1, up a tad from the nearly invisible readings of 8% and 9% on April 1 and July 1. The low reading and the current market uncertainties guarantee another weak performance during the 4th quarter.

Dollar volume is down from last year but up a bit from the alarmingly low number in the second quarter. The improvement, however, is due entirely to the sale of three units at Spanish Bay during the quarter, two at over \$2 million dollars and one over \$3,000,000. Those three units totaled \$5,827,250 or 28% of the total volume in the quarter.

The two largest markets in terms of numbers of units are Carmel Valley and Monterey. Carmel Valley held up well in relation to last year with the same number of sales, 10, and a slight gain in dollar volume, \$758,000 over last year. The two senior citizen complexes, Hacienda Carmel and Del Mesa Carmel, had three and two transactions respectively, not great but at least something, and Carmel Valley Ranch logged three sales in the quarter with a healthy median sales price of \$1,080,000.

Monterey, on the other hand, suffered a large decline from last year. Sales volume declined from \$7,677,681 to \$1,663,000, a drop of 78%. The number of units sold dropped from 14 to 3. It was truly a terrible quarter for condos in Monterey.

Prices

For the most part prices are trending down just like volume. The median sales price of \$568,250 during the quarter in Carmel Valley improved over the same period last year but was off the 2007 median sales price of \$642,500. All the other markets declined with the exception of Monterey where the median sales price jumped to \$590,000 from \$472,500 last year but on the meager volume of only three sales.

No doubt that 2008 will go in the books as one of the weakest condo markets on record.
